I am so grateful to be awarded with this partial scholarship. I was so excited when I received your email!

Right now, my financial situation is such that I don't think I'd be able to come up with the \$371 to pay the other half of situation by mid-September. I don't want to miss out on this opportunity if I can help it, and was wondering if there was any way I would be eligible for a full scholarship or if you have any type of payment plans?

In addition to me having a [start-up media site](#) to empower women and girls in my community, I was just recently assigned as the program director by the [Westchester Women's Agenda](#) to create a report on the Status of Women in Westchester.

Not only will the report help non-profits and other organizations get support and funding for programs that help women and girls in New York, it will include an action plan to address areas that need improvement to help females in Westchester thrive. I also get to create a documentary for it, which I am beyond excited about.

I feel this workshop would help me better serve my community on this project and hoping we can work something out so that I am able to attend.
